

**Fire Door Retainer**

- Designed to safely hold open a fire door and automatically release upon the sound of a fire alarm. Improves disabled access, doors can be safely held open, in-line with the DDA.
- Self contained battery operated and installed in around 5 minutes.
- Listens for a continuous fire alarm sound level of over 65 decibels. After approx. 14 seconds it will release allowing the fire door to close.
- Complies with BS EN 1155 and accepted by the fire brigade.
