- Red RAL 3003; Claret RAL 3005; Yellow RAL 1004; Blue RAL 5002; Dark Blue RAL 5003; Green RAL 6016; Grey RAL 7036; Dark Grey RAL7043; Brown RAL 8017; Black RAL 9017; White RAL 9016.

Key Points

- An Explanation of some of the terms used in this section
- CEN Standards, the CE mark means that the product meets the requirements of the Construction Products Regulations. CE marked products have been successfully type-tested to a harmonised European standard. The CE mark shows that, in case of legal action, the correct standard of ironmongery has been used.
- EN 1125 Is the British standard relevant to panic hardware which will be used in a public area to provide an escape route to those without prior knowledge of the operation of that hardware.
- EN 179 is the British standard relevant to panic hardware fitted where the exit is used by a trained or initiated person. Not suitable for places of high occupancy where there may be members of the public.

High Quality Outside Access Device

- CE Marked for safety CEN standards EN179 & EN1125
- Not Handed.
- Tested and certified by independent test house

Product Title	Code

Silver Outside Access Device	PB010130
Silver Outside Access Device to suit Euro Profile Cylinder	PB010135

Why not let us do the hard work?

Our project specification service is FREE to all of our customers. All you need to do is choose the style of ironmongery you are interested in, give us the plans for your project and we'll do the rest. All ironmongery is chosen to match your specification and budgetary requirements. Our trained staff will ensure that all hardware is compatible to save you time when installing. All hardware is specified according to current legislation, i.e. DDA.
