- Colchester - 01206 877488,
- Ipswich - 01473 292810

**Much More Available**

- We have chosen some of the more commonly used safes from our range for this catalogue. We have many other safes in our range, so if you don't see what you want, give us a call or drop us an email. We stock safes from many of the top manufacturers, and can help you choose the correct one for your purpose.
- Visit [www.acleighsafes.co.uk](http://www.acleighsafes.co.uk) for a wider range, or pop into one of our shops.

**Key Points**

- A few key points to consider when choosing a safe.
- Cash Cover - The cash cover of any safe is an evaluation of the standard to which that safe is constructed, the higher the cash cover, the greater the protection within the safe. Cash Cover varies greatly from around £700 to over £150,000. These figures are not just randomly chosen by the manufacturers, but are tested and given a rating by independent testing bodies. The L.P.C.B (Loss Prevention Certification Board) being one, and A.B.I.S (Association of Burglary Intervention Surveyors) being another. The cash cover is a recommendation to insurance companies of the sum of money that can be stored overnight. Generally insurance companies will multiply the cash cover by 10 for valuables, eg. £3000 cash cover would be £30,000 in valuables.
- Delivery - We can deliver and install safes on your behalf. Consideration must be made for the route the safe needs to be taken, especially if there are stairs. If in doubt we can survey the site for suitability. Please speak to our sales team for more details.

**Safe Delivery, Removals, Repairs & Installation**

- Our experienced safe engineer can deliver and install safes on your behalf. Removals and repairs are also possible. It's important that you get the correct safe for your purpose; our safe engineer can talk you through your available options. Please call our sales department for more information on our Safe services. (Safe engineer based in Norwich).
