The **BL3000** metal gate lock series is another unique product from Borg. Combining a specially designed lockcase with our proven Marine Grade keypads we are able to offer the perfect access control solution for box section metal gates. The lockcase utilizes a forend fixing system which increases security and ease of fitting.

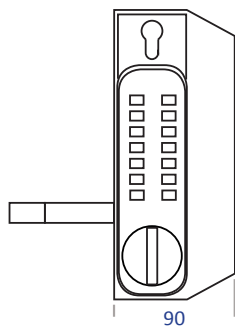

The self-locking system has been designed with adjustability and ease of fitment in mind; the latchbolt can be adjusted to suit a variety of box section profiles whilst the latchbolt head is reversible to suit left and right hand hung gates.

## Features

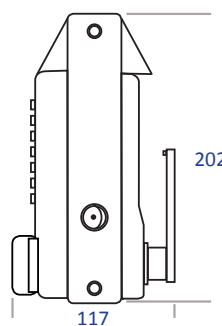

- To suits gate profiles 30-60mm on standrad fixings
